

PROGRAM

Alagna, Gressoney and Champoluc, 3 valleys united to form the vast area of Monterosa Ski, the paradise of freeride. The routes are almost unfinished and for all levels, even for those who want to try their hand in the first turns in fresh snow. Some routes start directly from the lifts, others require a little more effort; a few minutes of climbing with the skins or the thrill of a drop with the rope, but with the reward of finding the perfect slope with the best snow.

A truly free experience, where the only limits are those imposed by the environment and its conditions, which must be known and respected to ensure an unforgettable experience.

Relying on the professionalism of a Mountain Guide will allow you to safely discover the most remote and hidden corners of our "freeride paradise" through the most suitable routes for you.

The itineraries will be chosen by the Guide according to the group's most suitable routes for you

INDIVIDUAL PARTICIPATION COST
