

We suggest you climb to Capanna Margherita starting on foot from Alagna! In four days of walking we will reach the top of Punta Gnifetti where the highest refuge in Europe is located.

An experience from another era, a different way to reach the top, just like the first climbers did.

#### PROGRAM:

**1st day:** meeting in the afternoon with the guide, check of the materials and from here for an easy path to Otro for the overnight stay.

**2nd day:** we continue towards Passo Zube which connects us to the Gressoney Valley up to Rifugio Gabiet.

**3rd day:** climb through the panoramic paths of Alta Luce up to Rifugio Gnifetti.

**4th day:** departure in the early morning for the long climb on the glaciers of Monte Rosa.

Once we reach the Capanna, after a short break, we will go back down to Indren to return to Alagna by cable car

#### INDIVIDUAL PARTICIPATION COST
