

A NIGHT AMONG THE STARS

A night spent in the highest refuge in Europe!

The Regina Margherita Hut is certainly the hotel with the highest number of stars in all Alps; all those of firmament visible from up there! And below you, the view of the lights of the plain will surely make an unforgettable experience.

The thin air of the high altitude requires a progressive ascent for your body, so it is better to spend the first night at an intermediate level. The Gnifetti refuge (3647 m) is the ideal place to acclimatise and prepare to pass a unique adventure.

Day 1: in the afternoon meeting the guide, take the cable car to Indren and then walk to the Gnifetti hut where you spend the night.

Day 2: wake-up and breakfast. In about 5 hours of walking you reach the Margherita Hut.

Day 3: in the morning after admiring the sunrise, we will start the descent to Indren, during our route we could make some detours to climb other easy peaks.

The Mountaineering School of Corpo Guide Alagna has always been committed to education and prevention of mountaineering accidents; these issues will be tackled during training sessions scheduled within the program.

INDIVIDUAL PARTICIPATION COST

1/2 members	1100€
3 members	380€
4 members	300€
5 members	260€
