

PROGRAM

We'll travel to Champoluc accompanied by a Mountain Guide, discovering the most picturesque corners of the Monterosa Ski area, which, between slopes and off-piste, spans the three valleys of Alagna, Gressoney, and Champoluc.

Enjoy a day skiing with us, having fun and learning the secrets of safe off-piste skiing.

This activity is suitable for those who want to spend a different kind of day on the snow.

A reasonable level of skiing technique is required. We'll reach Champoluc, alternating between slopes and easy off-piste skiing. You'll be provided with a safety kit: backpack, avalanche transceiver, shovel, and probe, and you'll receive a short training session on the equipment needed to safely tackle your beloved
